

CraftCan15 Canning Line

ABE
EQUIPMENT

The CraftCan15 is designed to fill, lid and seam up to 15 cans per minute in a wide variety of aluminum cans with minimal downtime and maximum throughput. Engineered with our patented Servo Seamer and on-demand seam analysis, this line offers precision filling that is second to none. The CraftCan15 is innovative, versatile, and affordable; built to generate the profits your craft beverage deserves.

Precision Filling

- Exclusive one-piece fill head design for enhanced sanitary environment and increased fill level accuracy
- Proprietary CO₂ micro-burst action to better manage foam
- Purge Cycle - precision purge control means reduced dissolved oxygen pickup resulting in reliable oxygen evacuation
- Upgradeable to CraftCan35
- Average DO pickup: 15-25 PPB
- Nitrogen compatible

Quick-Change Lid Magazine

- Increase your efficiency

Servo Seamer Technology

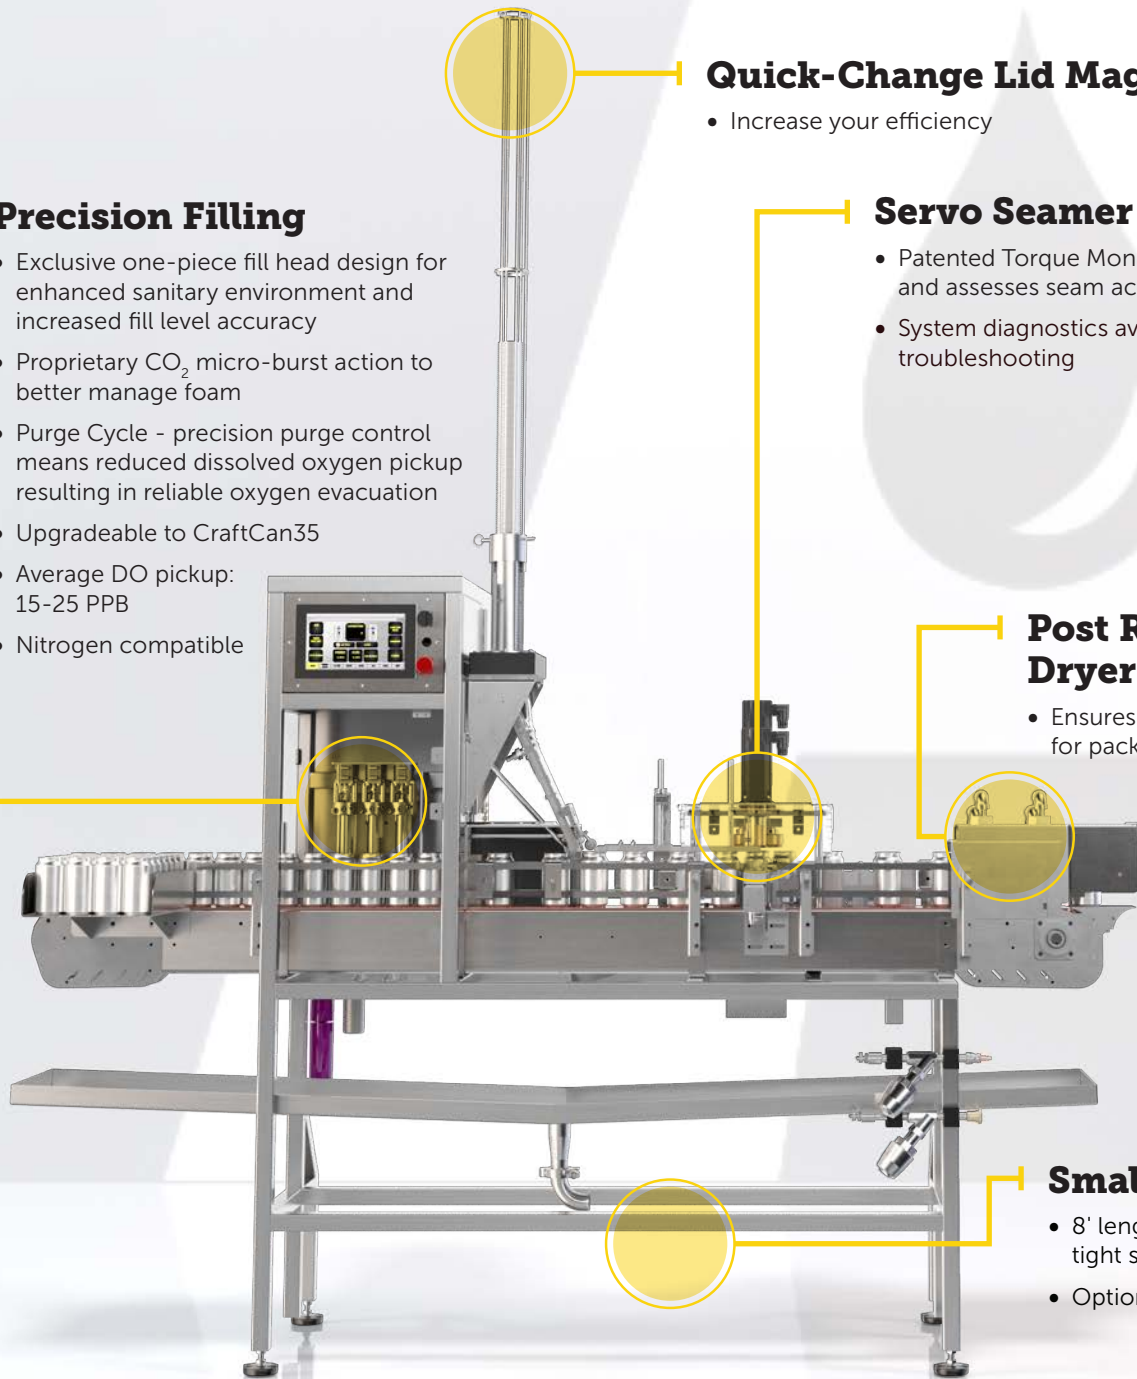

- Patented Torque Monitor instantly inspects and assesses seam accuracy on every can
- System diagnostics available for remote troubleshooting

Post Rinse & Dryer Included

- Ensures cans are clean & dry for packaging or labeling

Small Footprint

- 8' length x 2' width fits in tight spaces
- Optional casters

Fills up to 15 Cans Per Minute
