

FlipRinse

ABE
EQUIPMENT

The FlipRinse by ABE Equipment has two configurations, cleaning 3 cans at 18 CPM or 8 cans at 48 cans per minute. The FlipRinse is the perfect companion to your existing or new CraftCan Canning Line or can be added to any other canning system. With a two-second rinse for every cycle, clean your cans quickly and efficiently before filling, and have the option to use ionized air if desired. It is designed to have low water usage and adjustable water spray settings and works with standard, sleek, and slim can sizes, easily adjustable between each size. With its compact design, it can quickly be added to an existing conveyor and is an excellent alternative for those wanting a superior clean product but are tight on space.

Your Complete Package

Each FlipRinse that leaves our facility carries UL certification and an industry-leading five year limited warranty on the metal and welds. In addition to a comprehensive spare parts inventory, you'll receive superior customer support from our team in Lincoln, Nebraska with any ABE Equipment purchase.
