

CraftCan35 Canning Line

ABE
EQUIPMENT

The CraftCan35 is designed to fill, lid and seam up to 35 cans per minute in a wide variety of aluminum cans with minimal downtime and maximum throughput. Engineered with our patented Servo Seamer and torque monitoring system, this line offers precision filling that is second to none. The CraftCan35 is innovative, versatile, and affordable; built to generate the profits your craft beverage deserves.

Precision Filling

- Exclusive one-piece fill head design for enhanced sanitary environment and increased fill level accuracy
- Proprietary CO₂ micro-burst action to better manage foam
- Purge Cycle - precision purge control means reduced dissolved oxygen pickup resulting in reliable oxygen evacuation
- Average DO pickup 15-25 PPB
- Nitrogen compatible

Quick-Change Lid Magazine

- Increase your efficiency

Servo Seamer Technology

- Patented Torque Monitoring system detects damaged cans, can misalignment, seam flaws, and gradual component wear
- System diagnostics available for remote troubleshooting

Post Rinse & Dryer Included

- Ensures cans are clean & dry for packaging or labeling

Small Footprint

- 8' length x 2' width fits in tight spaces
- Optional casters

Fills up to 35 Cans Per Minute
